

dream
a little...

...then let **Origin**
be the starting point for
a whole new way of life.

An Origin Bi-fold Door is more than just a simple door. It is an elegant creator of both space and potential; the architectural realization of your dreams.

While the elegant design and ultra slim aluminum frame profile connects you to the world outside like no other, the precision engineering and high performance components combine to deliver doors of matchless quality.

Imagine your home and your life with a custom, award winning Origin Bi-fold Door; a world of new possibilities awaits you.

peace of mind...

10
YEAR
warranty

Each custom Origin Bi-fold Door is designed and manufactured at our impressive state of the art Florida based facility.

Exceptional care is taken in designing our doors to ensure durability and long-term performance. Only ultra-high quality components, specially designed by us, are used in an Origin Bi-fold Door. Every one of our skilled craftsmen takes pride in creating the best folding sliding doors money can buy.

That's why Origin Bi-fold Doors are warranted by us to perform faultlessly for **at least 10 years.**

thermally efficient...

Hurricane rated and thermally protected...

The Origin Bi-fold Door has been engineered to such high standards that it is one of the select few doors of its kind to pass Florida's rigorous High Velocity Hurricane Zone testing standards without sacrificing thermal performance.

Your Origin Bi-fold Door makes use of premium locking mechanisms for maximum compression to protect you from extreme pressure, wind and water conditions as well as wind-propelled debris - all while keeping your energy costs down.

In addition to this, the Origin Bi-fold Door has been designed to keep a property cool during the warmer months to help make a room usable all year round.

even

Origin Bi-fold Doors sweep away the boundaries between the inside and out.

Low threshold designs allow for equal floor finishes inside and out. There are two options available; weathered and non-weathered.

Visually, the effect is stunning. Practically, it creates one space out of two for the ultimate use of your space at home.

safety first. always.

Nothing is more important than safety and comfort in your home.

Origin Bi-fold Doors come with custom 'finger safe' seals between each door, ensuring there are no gaps for little fingers to get trapped.

The lead door is held in place by a strong magnetic stay which prevents the door being caught by gusts of wind and slamming.

The threshold design allows the bottom track to be encased in the floor and hides away the free-glide roller system to prevent little fingers from getting trapped.

All in all, a unique combination of safety features.

low maintenance. no worries.

We think you should be able to enjoy your bi-fold doors without the worry of time consuming and complicated maintenance.

Our high grade aluminum is our material of choice because it offers the right combination of strength and weight, allowing for a narrow, more aesthetically pleasing frame.

Origin Bi-fold Doors are finished with the highest grade, longest lasting powder coating available, removing the need for periodic painting and maintenance. This hard wearing finish protects against scratches and color fading, whilst maintaining the doors original good looks.

Our concealed running system is protected from the elements, ensuring the smooth gliding action of your doors for a lifetime.

Made in USA

Origin is an established firm, providing excellent customer service before, during and after your purchase, and to us, personal service and attention to detail is everything.

Every bi-fold door is designed, crafted and assembled at our Florida based factory, and are completely custom to your specification. Specify your size, your configuration, your colour schemes, finishes and handles and leave the rest to us. This level of personalisation ensures a door that is not only completely tailored to your home and requirements, but will also complement your style.

Exceptional care is taken in designing and manufacturing an Origin product, and only ultra-high quality components, specifically designed by Origin, are used.

We have a US based specialist team of sales and technical professionals who are fully committed in providing customers accurate advice in a reliable, efficient and professional manner.

now for something different...

Corners... Flexibility...

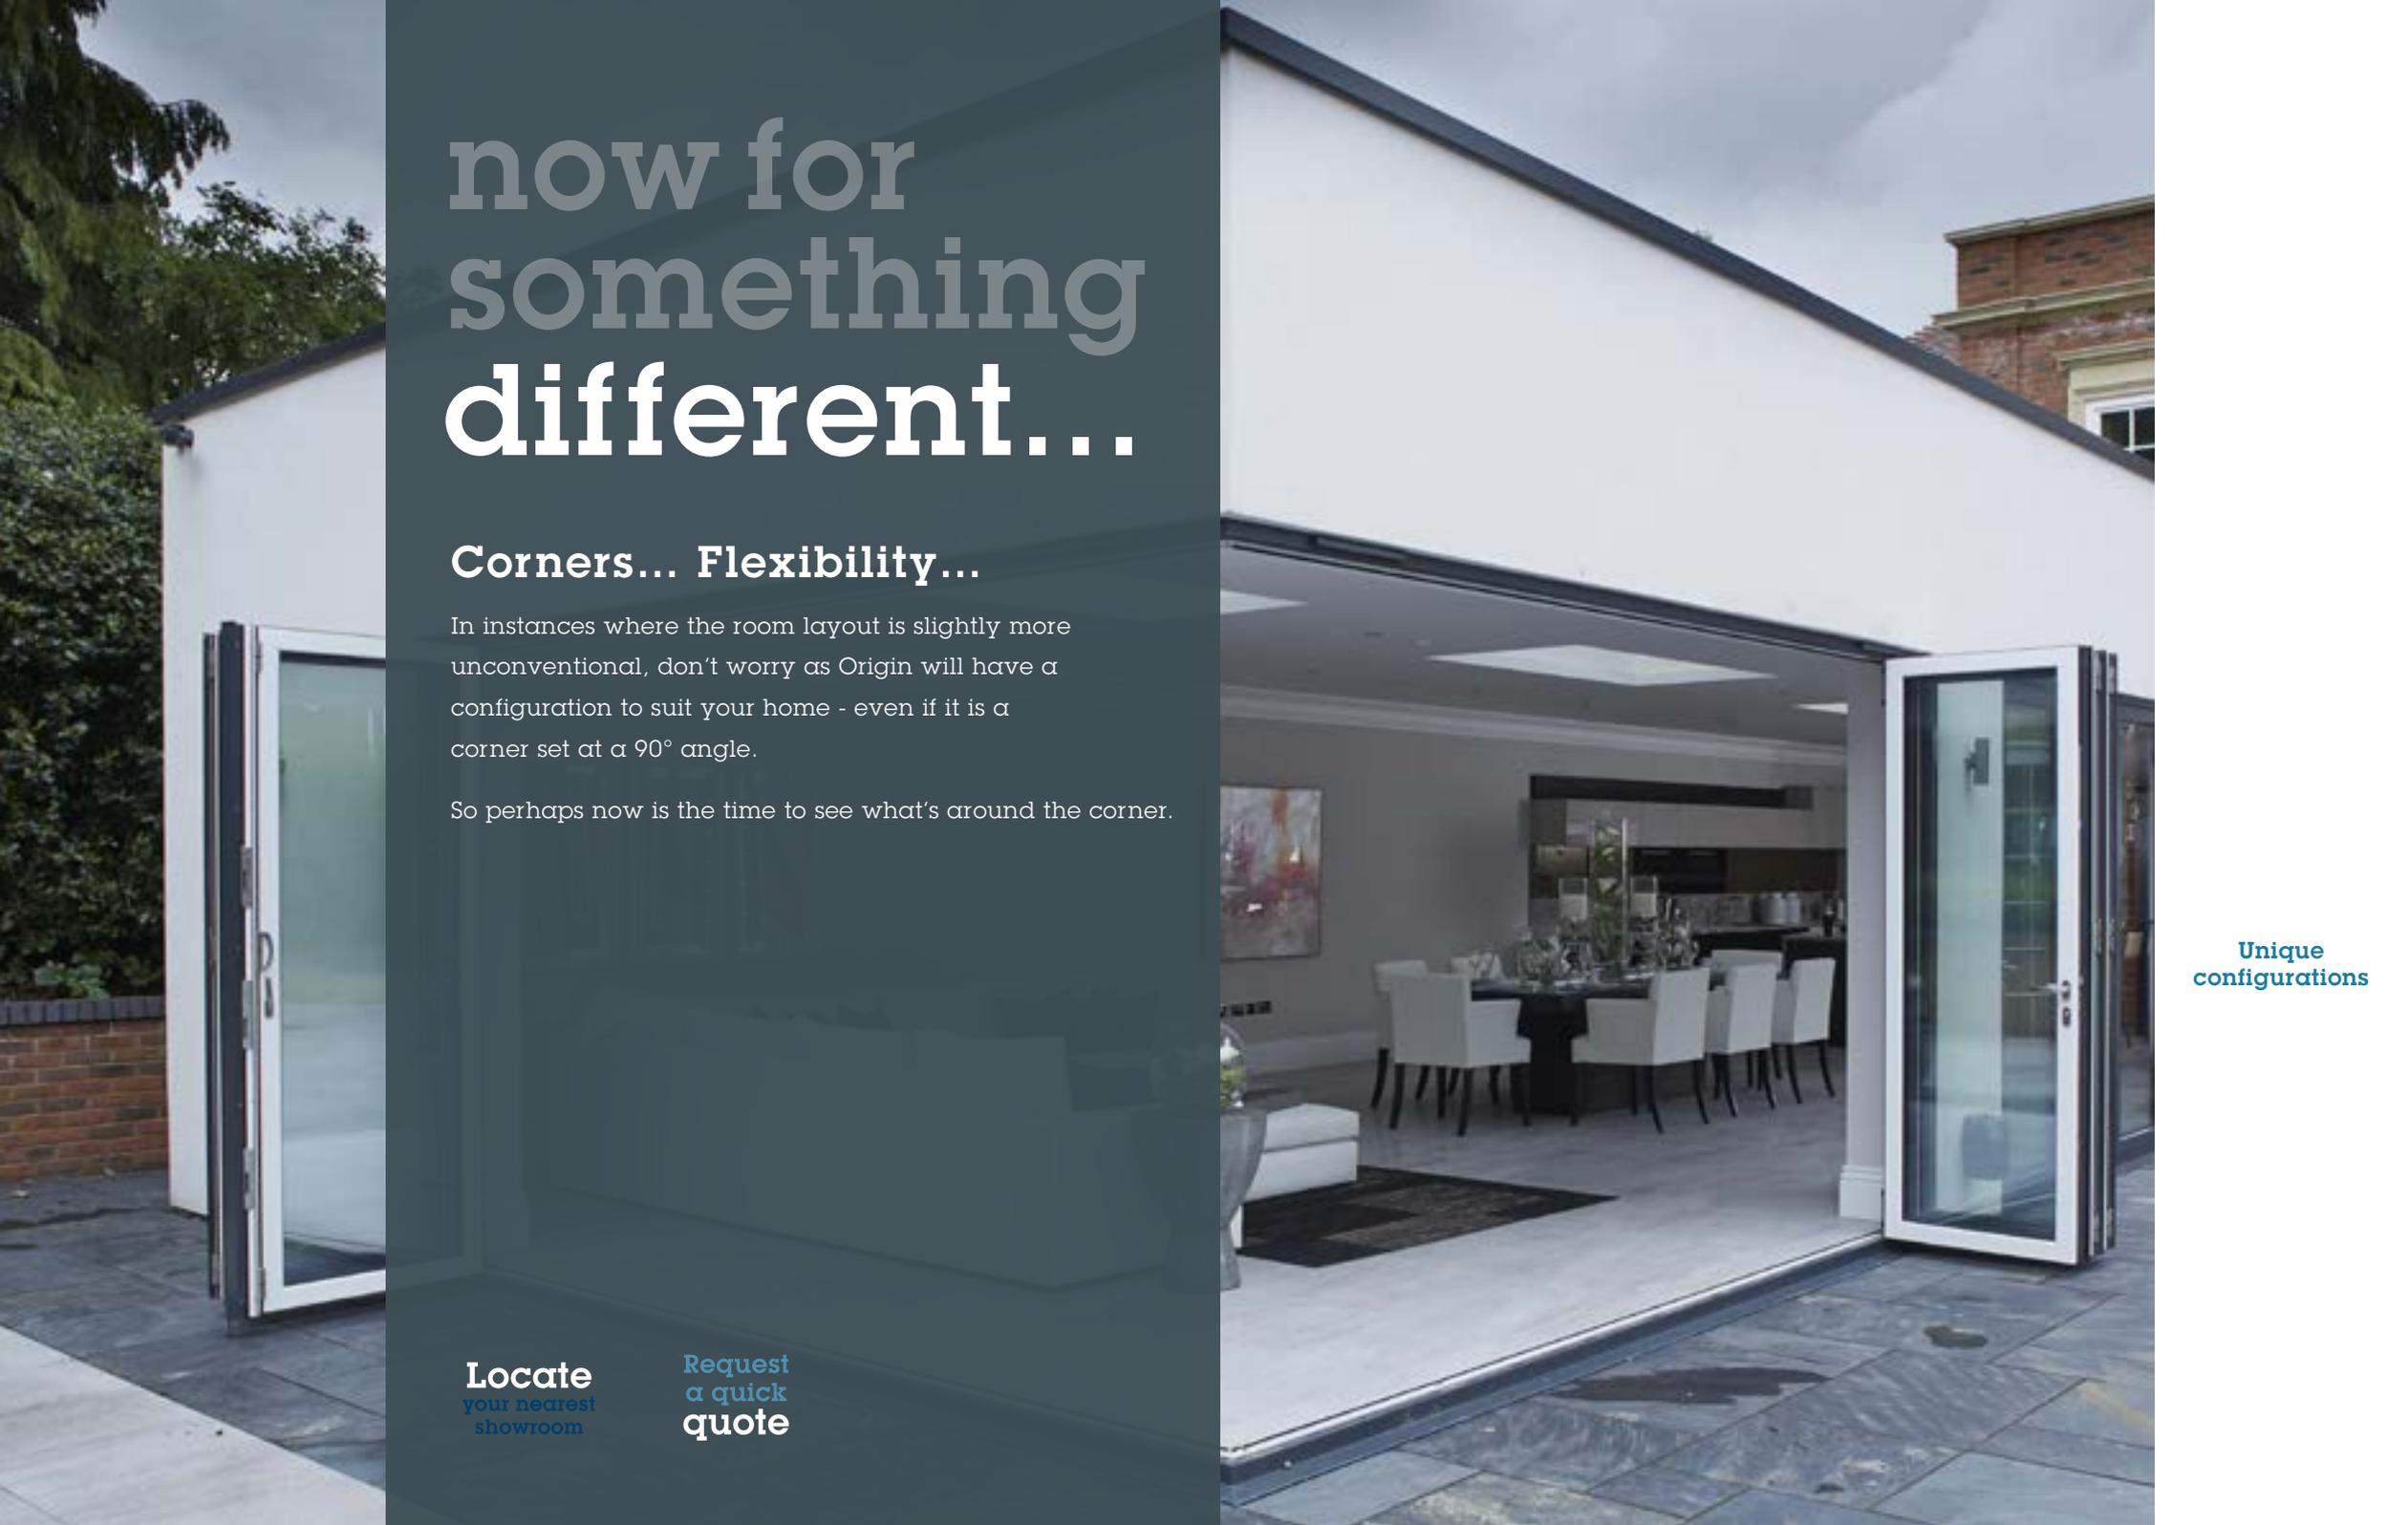

In instances where the room layout is slightly more unconventional, don't worry as Origin will have a configuration to suit your home - even if it is a corner set at a 90° angle.

So perhaps now is the time to see what's around the corner.

ergonomic and timeless handles...

Handles do a simple job.

Origin Bi-fold handles just do it so much better. The handles of your Origin Bi-fold Doors are its primary point of human contact. They must blend reliable functionality with tasteful aesthetics and real-world ergonomics. When you hold them, they must communicate safety and robustness.

That's why our handles are given the same attention to detail as every other component. Whether you choose premium stainless steel or color co-ordinated ones, you can be assured of a contemporary handle which offers the same faultless service as the doors themselves.

KEY:

 Optimum door leaf sizes

choose your configuration...

Choosing your Origin Bi-fold Doors has never been easier.

If you know your rough opening sizes, find the nearest opening measurement in the table below and scan down the column to view your possible door options. Alternatively, if you're set on a particular number of doors and you are designing your opening around your doors, select your preferred number of doors in the left column and scan across to identify the opening sizes available to you. Remember, every door we manufacture is custom and manufactured to your exact sizes and chosen configuration.

A design for
your life

Origin was founded in 2001 when cousins, Neil Ginger and Victoria Brocklesby, found they could not get great aluminum folding sliding doors for their building projects.

Their ambitious solution was to create a company capable of manufacturing the highest quality doors in the market, backed by uncompromising levels of service.

The ethos of a family firm still remains today, despite Origin being a global leading manufacturer of folding sliding doors.
