DOORS AND WINDOWS

Today's luxury made affordable

National Builder Program

Origin Bi-Fold Door and Window Series

It's all about lifestyle...

The Origin family of Bi-folding Doors and Windows have been designed to compliment each other to create as many indoor to outdoor openings as possible.

Create more light and interaction with the outdoors by folding and stacking.

“Memories that are built closer to nature leave the deepest imprint”

Ben Halvorsen, President Origin USA Inc.

Bar-top bi-folding windows

3 Step - Choose and go...

1 SELECT SIZES & CONFIGS

Flexibility as standard - without the confusion. 3-, 4-, 5- & 6-panel options with multiple configurations to suit any lifestyle. Doors open inwards or outwards.

1 Door Option

Single door

2 Door Option

2 doors fold in one direction

French door

3 Door Option

3 doors fold in one direction

4 Door Option

4 doors fold in one direction

3 doors fold in one direction, 4th door in the other

5 Door Option

3 doors fold in one direction, 2 in opposite direction

5 doors fold in one direction

6 Door Option

5 doors fold in one direction, 6th door in the other

3 doors fold in one direction, 3 in opposite direction

2 CHOOSE YOUR COLOR, HARDWARE AND FINISHES

Colors to suit all lifestyles...

Jet Black

Patio White

Southern Bronze

Anodized Bronze

Solid stainless steel lever handle with separate escutcheon

(Style 253/280)

Available in stainless steel, black, bronze and white

3 MATCH YOUR GLASS TO YOUR CODE REQUIREMENT:

Impact Rated, Ultra-thermal, Turtle Glass etc..

Simple Thresholds

No matter the size of the opening or number of panels - one track dimension fits all. Simply lay the 2 inch tall track into a designed-in recess and the panels will slide and stack on a flush track that will always be 3 inches from front to back. No more 9+ inch track add-ons for endless panels on larger openings to step over.

When it's all said and done, what practical detail do we all care about the most? Nine times out of ten - it's the threshold. Is it flush? Does the water stay out? How big is the step-over? What standards does it meet? Is it easy to install?

Tested to High Velocity Hurricane Zone AAMA water standards, no internal riser to worry about and even a thermal break, the discreet track system even has a small prep detail to allow for trolleys to be swapped out in the unlikely event that there is a failure.

Unbeatable lead times and quality

With set sizes and easy to understand configurations, National Builders can offer the highest quality folding doors and windows at unbeatable prices with lead times measured in days rather than weeks.

Configurations...

Choosing your Origin Door has never been easier. If you know your rough opening size, find the nearest opening measurement in the table below and scan down the column to view your possible door options.

Opening Size

Number of panels

	3080	6080	8080	9080	1080	1280	1580	1680	1880	2080
1 Door	Standard									
2 Door		Standard	Wider							
3 Door			Standard	Standard	Wider					
4 Door				Standard	Standard	Standard	Wider			
5 Door							Standard	Standard	Wider	
6 Door								Standard	Standard	Wider

Standard widths available at 10ft tall*

Wider & fewer panels available at 8ft tall*

*Non-hurricane impact zones only

Precision Craftsmanship

Not all bi-folds were created equal. The Origin Bi-fold Door has been designed from the ground up, using proprietary hardware (no off-the-shelf add-ons to be found anywhere) with the homeowner and installer in mind.

All components are easily swapped out for quick servicing. Most importantly, customers experience smooth and intuitive operation over and over again.

Gravity on our side

The Origin Bi-fold was designed as a “bottom run” system which allows corner doors to work with floating cantilever openings with no fixed corner post needed.

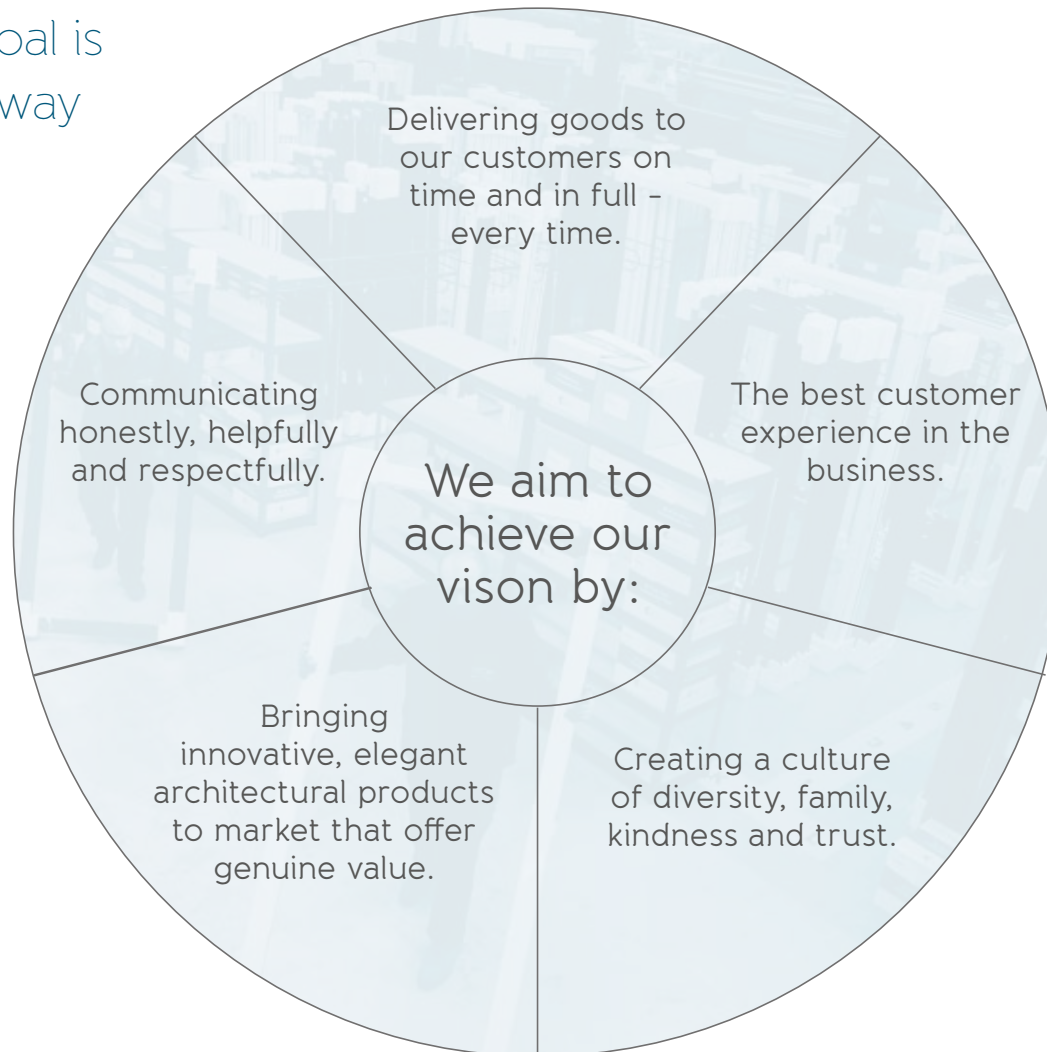

Extra light and unhindered views make the corner door set-up a property game-changer.

Guiding principles...

What to expect from Origin

Simply put, our goal is to transform the way we do home.

The Origin Team

Passionate and purposeful best describes the 300 strong team working hard every day to deliver on the promise to make the best doors and windows in the world for the homes you build.

Who is the builder program for?

The Origin Builder Program is for National Builders who are driven by bringing their customers increased value at price points that make sense.

In today's contemporary culture, there is no greater transformational lifestyle need than indoor to outdoor living.

In a world of nearly endless upgrade options, the products that create family time, entertainment opportunities and meaningful experiences with nature have been proven time and time again to be the most important feature to prospective homebuyers.

Contact Us...

While Origin is a global leader in manufacturing thermally broken aluminum doors and windows, we remain to this day a family owned and operated company that puts employees and customers first.
